

Micro Plus

Let us print your part!¹

Micro Plus XL

The Micro Plus XL provides the ideal desktop companion for a wide variety of 3D printing applications. It is a professional grade 3D printing solution utilizing an industrial UV LED light source and the largest build envelope available in the Micro Plus Series.

A touchscreen adds convenience to the user interface, allowing for the necessary files for the print to quickly and easily be transferred from any network computer directly to the Micro Plus via Wi-Fi.

The Micro Plus 3D printers can produce functional parts with exceptional surface quality without sacrificing speed. The materials available for the Micro Plus line cover a wide range of applications, including dental, jewelry, toy, medical, industrial design, engineering, and more.

Patents Pending

Machine Properties ²	Micro Plus XL
Build Envelope	120 x 74 x 85 mm (4.72" x 2.05" x 3.35")
X Resolution	0.003 in. (82 µm)
Y Resolution	0.004 in. (105 µm)
Dynamic Z Resolution	0.001-0.003 in. (25-75 µm)
Light Source	Industrial UV LED
Data Handling	STL
Warranty	1 year back to factory included
EnvisionTEC Item Number	MIC-17-1000

System Properties

- Changeover between materials is quick and easy with no waste
- Plug and play with an easy to use software interface
- Very few moving parts guarantees a strong and reliable production system
- Touchscreen and Wi-Fi capability add ease to the user interface

Footprint (L x W x H): 9 x 9.5 x 26 in. (22.86 x 24.13 x 66.04 cm)
 Weight: 35 lbs (16 kg)
 Electrical Requirements: 110 VAC @ 3A
